## PERSONAL PROFILE

My journey is an exciting blend of goals, experiences, and a promising career in software development. With a solid foundation in technology, acquired during my studies in Systems Analysis and Development, I honed my skills during a stay in Europe, immersing myself in diverse cultures and refining my English.

Upon returning to Brazil, I decided to realign my focus, combining my background in finance with a renewed commitment to software development. Currently, I am immersed in challenging projects involving HTML, CSS, JavaScript, and React, always seeking opportunities to expand my knowledge.

Beyond work, I find balance by practicing kitesurfing and engaging in other physical activities. I am driven by a constant passion for learning and growth, and I am excited about the prospect of contributing to a dynamic and innovative team in the field of software development.

## CONTACT

- ✉ magaivermagalhaes.mm@gmail.com
- 📞 + 55 (85) 981467094
- 🏠 Av. Jose moreira rebouças 1340 – Fortaleza, Ceará, Brasil

## SKILLS

- HTML
- CSS
- JavaScript
- React
- Bootstrap
- JQuery
- TypeScript
- Php

## CAREER OBJECTIVE

- Desenvolvedor Front-End
- Internship, Assistant or Junior

## EDUCATION AND LANGUAGES

- **Higher Education:** Studying Systems Analysis and Development (UNIVERSIDADE ESTÁCIO DE SÁ)
  **Advanced English:** (Self-study/Living in Europe)
- **HTML Course** (w3schools.com)
- **CSS Course** (w3schools.com)
- **JavaScript Course** (w3schools.com)
- **Professional Programmer Course** (DCS)
- **GitHub Course** (w3schools.com)
- **MySQL Course** (w3schools.com)
- **TypeScript Course** (w3schools.com)
- **Bootstrap Course** (w3schools.com)
- **jQuery Course** (w3schools.com)

## PROJECT

### Portfolio | HTML, CSS , JavaScript

https://portifolio-two-omega-89.vercel.app/#home

- **Front-End Development – Portfolio Project (Period MAY/2023 – OCT/2023)**

- I utilized my skills in HTML, CSS, and JavaScript to create visually appealing and responsive user interfaces in my portfolio, ensuring a visually pleasing experience for visitors. I am pleased with the outcome as my portfolio reflects my dedication to creating engaging and functional designs, and I am excited to continue expanding my knowledge in web development.
  **TypeScript Integration:**
- During the development phase, I meticulously implemented responsive design using HTML, CSS, and JavaScript to ensure optimal user experiences across various devices. A crucial part of this process involved the incorporation of custom JavaScript validations, tailored to screen size, allowing certain functionalities to adapt only to this context. This commitment demonstrates my dedication to creating a highly responsive website, meeting the demands of the ever-evolving digital landscape and providing an exceptional user experience.
- Collaboration and Engagement: I conducted this project independently, relying on forum resources and extensive research to achieve my goal.

# PROFESSIONAL EXPERIENCE

## PROJECT

### Barbershop | Typescript, Tailwind , JavaScript

https://barbershop-my-project.vercel.app/

- **Full-Stack Developer - Implementation of a System for a Barber Shop (Period Sept/2023 - Jan/2024)**

- I actively participated in the team responsible for implementing a comprehensive system for a barber shop, playing an integral role from conception to final delivery.
  **Full-Stack Development:**
- I collaborated on the development of the system's back-end, using PostgreSQL to efficiently manage the database and ensure the integrity and security of the barber shop's critical data.
- I contributed to the architecture and implementation of the system's front-end, using React to create an intuitive and responsive interface that meets the specific needs of users.
  **Usability and Intuitiveness:**
- I worked closely with the design team to ensure that the system was designed with an exceptional user experience in mind, focusing on ease of use and intuition.
- I implemented interactive features and visual feedback to enhance user navigation and understanding, resulting in a user-friendly and effective interface.
  **Testing and Iterations:**
- I conducted rigorous tests throughout the system, identifying and fixing bugs to ensure a final product of high quality and reliable performance.
- I established a process of continuous iteration, incorporating user feedback and constantly refining the system to meet the evolving demands of the barber shop.
- My comprehensive contribution to this project demonstrates my ability to work collaboratively in a multifunctional team environment, as well as my skill in addressing complex challenges and offering innovative solutions that add value to the client.

## PROJECT

### Barbershop Mr.Denny | HTML, Bootstrap, Php

https://mrdenny.com.br/

- **Web Development Front-End: Full-Stack - Implementation of System for Barber Shop (Period Dec/2023 - Feb/2024)**

- I actively participated in the team responsible for the development and implementation of a comprehensive system, playing an essential role from conception to final delivery.
  **Full-Stack Development:**
- I contributed to the development of the system's back-end, using PHP to create a solid and effective framework that securely manages and processes vital system data. Additionally, I utilized Bootstrap to ensure a cohesive and responsive interface across all devices.
- I also played a significant role in the architecture and implementation of the system's front-end, combining HTML, CSS, and PHP to create an intuitive and highly interactive interface. The use of AJAX enabled effective communication between the front-end and back-end, ensuring a fluid and dynamic user experience.
  **Usability and Intuitiveness:**
- I collaborated closely with the design team to ensure that the system was designed with an exceptional user experience in mind. I implemented interactive features and visual feedback to enhance the usability and navigability of the system, allowing users to perform their tasks intuitively and efficiently.
  **Testing and Iterations:**
- I conducted comprehensive testing at all stages of development, identifying and correcting flaws to ensure a final product of high quality and reliable performance. I established a process of continuous iteration, incorporating user feedback and constantly refining the system to meet evolving demands.
